POSTGRADUATE COURSE GUIDE

Welcome to Deakin University

I am delighted to welcome you to Deakin University's 2012 Postgraduate Course Guide.

The choice to undertake postgraduate study is a significant one and I know that many important considerations surround your decision to return to study. I hope it is with Deakin.

Deakin University offers a diverse range of flexible, high-quality postgraduate programs that are designed to meet your work, lifestyle and family commitments.

The University operates from four campuses – one in metropolitan Melbourne, two in Geelong and one on Victoria's south-west coast in Warrnambool. Each campus offers students access to excellent teaching, research, ICT and library facilities.

Deakin also partners with government bodies, industry experts and some of the world's leading research institutions to produce research of distinction and relevance – an important add on to postgraduate study at Deakin.

From graduate certificate through to doctoral level, Deakin offers postgraduate courses in a wide range of areas including traditional disciplines such as

Arts and Science, as well as specialist disciplines such as Sport, Environment and Nutrition, and in professional fields such as Architecture, Business, Management, Medicine, Law, Engineering, Information Technology, Nursing, Teaching and Psychology.

With accredited qualifications and leading research, Deakin aims to produce well-rounded graduates who are valued. The supportive academic staff at Deakin work hard to ensure that your course meets your individual career objectives. Deakin has twice won the prestigious Australian University of the Year award and is a member of Universities Australia and the Association of Commonwealth Universities.

I welcome you to read on to see what makes Deakin University such a vibrant and supportive place to study. I look forward to welcoming you to one of our campuses soon.

Professor Jane den Hollander
Vice-Chancellor

Using this guide

This guide provides domestic students with an introduction to Deakin University – the range of courses it offers, the support services available and an insight into life as a Deakin postgraduate student.

It is designed to be read in conjunction with our postgraduate study area booklets, which contain detailed course information including descriptions of course units.

You can apply online for a Deakin course, track the progress of your application and accept your offer at www.deakin.edu.au/apply.

Deakin University also produces course guides specifically for international students. To request a copy phone Deakin International on 03 9244 5095 or visit www.deakin.edu.au/international.

Deakin: get results

Deakin offers a total university experience. You will receive a flexible, quality education that prepares you for success in your career.

Study how and when you want. At Deakin it's your choice. Multiple course entry and exit points, deferment, residential programs, and full-time and part-time study options all allow you to structure your study to suit your life, work and personal commitments. The majority of our courses offer you the choice of on or off-campus study through the use of online technology, including podcasts and MP3s.

With three intakes a year, Deakin's **trimester system** gives you the potential to fast-track your degree, allowing you to progress your career by graduating sooner. The trimester system may also mean you can commence your postgraduate qualification at a time that is more convenient to you.

Deakin **prepares you for the real world** by providing opportunities to gain valuable, hands-on experience. Workplace skills are taught by industry professionals and practical experience is gained through placements, internships and overseas study programs.

Our courses are **relevant and responsive** to community and industry needs, as each course is designed and regularly reviewed by its own Course Advisory Board. Course Advisory Board members include academic and industry experts and professionals who provide advice on all aspects of a course (including the skills sought by industry employers), share industry knowledge, and provide input into course development processes, industry links and placements.

Deakin University's award-winning **residential programs** give professionals the opportunity to complete a unit in five consecutive days of intensive study. Participants immerse themselves in the unit content, undertake innovative and experiential learning activities, and build their professional networks. Residential programs are conducted at the Deakin Management Centre – a purpose built, world class, residential executive leadership centre at the Geelong Waurin Ponds Campus.

With **more than 150 postgraduate courses** to choose from, Deakin offers you a broad range of options. In addition to providing high-quality traditional programs, Deakin continually adapts and develops new courses to meet the ongoing demands of the domestic and international labour markets.

Deakin allows you to choose your study environment.

With campuses located in Melbourne at Burwood, Geelong and Warrnambool on Victoria's south-west coast, Deakin allows you to choose between metropolitan, regional or rural study environments. You can also choose to study from your home or office by studying off campus.

Deakin understands that **self-paced online learning** will play a major role in your ongoing career development and we are proud of the delivery of our innovative, flexible online study options for postgraduate students. These include:

- » iLecture – an automated media capture system that can provide online access to video, audio and lecture recordings via streamed Quicktime files, podcasts and MP3 downloads.
- » Desire2Learn – the core learning management system used to deliver web-based course material and assessment tasks; it also facilitates communication and collaboration between students and staff, and contains an ePortfolio.
- » eLive – a communication tool that allows participants to talk online in real time and share video presentations.

In some courses, Deakin offers you the opportunity to **study overseas** as part of your degree, bringing a different perspective to your studies and helping you to consolidate your learning in an international context.

Deakin's recent achievements have been recognised through many awards, including seven Citations for Outstanding Contributions to Student Learning in the 2010 Australian Learning and Teaching Council Awards and a 5 star MBA rating by the Graduate Management Association of Australia (GMAA).

Deakin also achieved excellent results in the Australian Research Council 2010 awards and received the top ranking of 5 – defined as well above world standards – in Materials Engineering, Medical Physiology and Human Movement and Sports Sciences and Zoology in the recent ERA rankings. The University also received a ranking of 4 – defined as above world standards – in the Engineering and Medical and Health Sciences clusters.

Students tell us that Deakin's **supportive staff and friendly environment** make it a great place to meet different people with new ideas. Our welcoming atmosphere also ensures that we continue to treat our students as individuals with freedom of thought and action.

www.deakin.edu.au

Postgraduate study and its benefits

No matter what stage of your career, there are many reasons to consider further studies. A postgraduate qualification will not only increase your knowledge in a specialised field of study but it will also help you to stand out in the marketplace and expand your career opportunities.

What is postgraduate study?

Postgraduate courses are for students who have completed an undergraduate degree or for those with significant work experience. You can start postgraduate studies to advance your career or change direction to a completely new field. It can also give you the opportunity to pursue a personal interest in a subject or discipline area. In particular, it can allow you to extend your undergraduate studies through research degrees where you can pursue your own theories or ideas at a high conceptual level.

Coursework programs

Our postgraduate coursework programs give you the opportunity to complete a graduate certificate, graduate diploma or masters course in a structured learning format to help you achieve your career goals (see page 4).

Research degrees

One of the most important functions of a university is to provide training in research. This is undertaken in research degree programs including masters by research and PhDs. The results of the research are incorporated into a thesis which is submitted for examination at the end of the program. The thesis must be a self-contained, integrated and coherent body of work which constitutes a substantial original contribution to knowledge as judged by independent experts.

Deakin offers three types of research degrees:

- » Masters by Research
- » Doctor of Philosophy (PhD)
- » Doctor of Psychology.

Increased income

Further education often attracts a higher salary. On average, people with postgraduate qualifications earn as much as \$18 000 more per year compared to those with only a bachelors degree, (*Postgraduate Destinations 2007*, produced by Graduate Careers Australia). A 2010 survey* also found that students who completed Deakin postgraduate programs:

- » increased their job satisfaction by 93 per cent within 12 months
- » increased their salary – the number of graduates with \$100K+ salaries increased by 61 per cent in the first 12 months after completion.

Career advancement

If you are keen to boost your career, a postgraduate degree can give you the edge in the competitive job market. A 2010 survey* of Deakin graduates found that 42 per cent attained a more senior position within 12 months of completing their postgraduate studies.

Employers recognise and reward higher qualifications in acknowledgement of the professional skills and strategic thinking required to attain a postgraduate degree. And if you need to gain a professional accreditation a postgraduate degree is often the fastest way to gain the qualification you require.

Flexibility

Whatever your reason for considering further studies, Deakin offers postgraduate study programs that fit easily around your work, family and lifestyle demands. Our flexible coursework and research degrees are designed to match a variety of career plans and personal interests and there are a number of options for you to choose from, including:

- » on or off-campus study
- » part-time or full-time study so if your circumstances change you can alter the number of subjects you take in a trimester
- » deferment options
- » multiple course entry and exit points
- » four campuses – one in Burwood, two in Geelong, and one in Warrnambool.

Learning for the future

Deakin's courses are developed in conjunction with Advisory Boards that are made up of experienced lecturers in partnership with corporate and professional organisations so you can gain up-to-date skills which are highly sought-after by employers. Lecturers draw on current industry practice and industry professionals often feature as guest lecturers. This ensures our courses are responsive to current real-world issues.

Expand your networks

Postgraduate studies at Deakin enable you to expand your professional and social networks, and study with like-minded people who share similar interests. Once you graduate, you can also continue to build on your University networks through Deakin University's Alumni Community.

* Deakin University Postgraduate Study conducted by First Point Research and Consulting and Directivity – July 2010.

Marcus Leslie
Graduate Diploma of Natural and Cultural Resource Management
Completed: 2009

.....
'It can be best described as a positive impact in many aspects of both my personal and professional life. I have a sense of pride and achievement in being able to say to people that I studied and passed a university course.'

Types of postgraduate study

Whether you are a recent graduate wanting to differentiate yourself in the marketplace or an experienced professional seeking a career change or advancement, there is a Deakin postgraduate course to suit your needs.

Coursework or research?

You may undertake postgraduate study by coursework or research. The best option for you will depend on your reasons for studying.

A postgraduate degree by coursework typically involves a series of units, with specific coursework and assessments. A research degree involves completing an approved program of research under the guidance of one or more supervisors within a prescribed time period.

If you are interested in undertaking postgraduate study as a way of changing career, advancing your existing career, or meeting the professional requirements to pursue your chosen career, a coursework program may be the right choice for you.

Research degree programs encourage you to develop independent research skills and are for students who want to pursue their own theories and ideas at a high conceptual level. The skills developed as part of a research degree include the ability to formulate a significant research problem, relate the research to the broader framework of knowledge in the chosen area, and the mastery of appropriate skills to tackle the problem. Research results are usually incorporated into a thesis, which is submitted for assessment.

Traditionally, research-level study has been viewed as a pathway to a research or academic career. However, employers now recognise that the varied skills gained through a research degree program are also highly applicable in the workplace.

For more information on the type of postgraduate study that best suits you and your career aspirations, please visit www.deakin.edu.au/postgrad.

Pathways to postgraduate study

At Deakin there are many pathways to postgraduate studies and in some instances you can use your relevant work experience as basis for admission into programs at a graduate certificate level. Once you have completed a graduate certificate, you can then articulate into a graduate diploma or masters degree course. If you have already completed an undergraduate degree you will usually be able to choose whether to embark on a masters degree, graduate diploma or graduate certificate. If you choose to undertake a graduate certificate or graduate diploma and then wish to progress to a masters degree, you will usually receive Credit for Prior Learning.

If you are interested in a research degree you usually need to have completed an undergraduate degree with honours or a masters degree with a substantial research component. Other qualifications may be accepted if the Faculty considers them equivalent and you can demonstrate evidence of your research ability.

Types of postgraduate degrees by coursework

Graduate certificate

These courses are designed to enable you to develop skills in a specialised area that may or may not directly relate to your undergraduate degree. Some graduate certificates are designed for those who have not completed an undergraduate degree and, once completed, the award can be used as a pathway to further postgraduate studies.

A graduate certificate can usually be completed in six months of full-time study or the part-time equivalent.

Graduate diploma

Graduate diplomas are more specialised and are usually vocationally-focused. Entry is usually based on completing a bachelors degree or equivalent; however, alternative entry may be possible, based on professional or industry experience or other relevant approved qualifications. A graduate diploma can usually be completed in one year of full-time study or the part-time equivalent.

In most cases the graduate certificate and graduate diploma can be used as stepping stones towards the completion of a masters degree.

Masters by coursework

These courses are usually designed with the professional in mind. They are intensive courses in which the qualification is directly relevant to a career area, and they have the added benefit of providing an environment for networking with like-minded people. A masters by coursework can often be completed in 12 to 18 months of full-time study or the part-time equivalent.

A postgraduate qualification from Deakin will not only increase your knowledge in a specialised field of study but it will also help you to stand out in the marketplace and expand your career opportunities.

FOR MORE INFORMATION VISIT
www.deakin.edu.au/research

Doctor of Business Administration (DBA)

The DBA qualification represents the highest level of educational achievement for professionals who want to develop research capability which may be directly applied to business practice. The program provides you with an opportunity to extend your business knowledge and your ability to communicate professionally as well as to undertake independent research in an area of specialist interest. The program consists of coursework (12 credit points) plus a major research project (12 credit points), completed over three years of full-time study or the part-time equivalent.

Contact hours

The contact hours for a coursework degree can vary depending on the type of course and your mode of study. For example, off-campus students are advised to spend approximately 10 hours of study per week per unit. If you are enrolled as an on-campus student, most units require three contact hours per week, plus up to seven hours per week of individual study time.

For more details please visit
www.deakin.edu.au/courses.

Types of research degrees

Deakin provides research degree programs to match a variety of career plans and personal circumstances. Part-time or full-time study is available on campus and some programs may also be available off campus.

Deakin offers three types of research degrees:

- » Masters by Research
- » Doctor of Philosophy (PhD)
- » Doctor of Psychology.

A masters by research degree is awarded for an original contribution to knowledge achieved in up to two years of full-time candidature (or two to four years of part-time candidature). Usually a thesis of not more than 50 000 words is submitted.

Doctoral degrees are awarded for a substantial original contribution to knowledge achieved in two to four years of full-time (or four to eight years part-time) candidature. Usually a thesis of not more than 100 000 words is submitted.

In the case of both masters by research and PhD degrees, the program may include some coursework but the focus of the degree is on research.

A Doctor of Psychology combines a research project, coursework and structured research tasks that are specifically related to professional practice and are often carried out in the workplace. Deakin offers Doctor of Psychology degrees in the areas of clinical, health and forensic psychology. At least two-thirds of these programs are based on research.

Research Services Division

The Research Services Division provides a central administration service for all students undertaking a research degree at Deakin University. It is one of the main points of contact for you and your supervisor on all matters relating to research degrees. These include applications, scholarships, enrolments, changes of candidature, supervision matters, ethics in relation to research, biosafety in relation to research, as well as the examination process.

For more information please contact:

Research Services Division

Phone: +61 3 9251 7124
research-hdr@deakin.edu.au
www.deakin.edu.au/research

Contact hours

Undertaking a research degree requires a much greater commitment of time than a coursework degree – at least 36 hours per week for 48 weeks of the year, for a full-time student.

Support from the Faculty

Research degree students are also supported within their Faculty and School. Each Faculty determines its own management structure for research degrees, and you are encouraged to consult the relevant Faculty about the staff responsibilities and contacts in this area.

For contact details, see the research page of your Faculty of interest, pages 28 to 32, or visit
www.deakin.edu.au/faculties.

Choose how you study

On-campus study*

On-campus students usually receive a combination of lectures and tutorials.

Lectures vary in size from 20 to 280 students, while tutorial classes are generally smaller, more informal and allow for open discussion of issues raised in lectures. Assessment may take a variety of forms, including written work and tests undertaken in class, participation in class or laboratory sessions, and final examinations each trimester.

Fieldwork or practical experience can also form a large part of the content and assessment of some units.

Off-campus study*

Off-campus units, or units offered by distance education, are similar to on-campus units; the only difference is that rather than attend classes in person, you study away from a campus using a variety of other methods, including online technologies, study guides, reading lists and audiovisual materials. Deakin offers a variety of coursework and research programs in off-campus study mode.

For more information about off-campus study see the page opposite or visit www.deakin.edu.au/future-students/mature-age/study-online.

Combine on and off-campus study*

Another aspect of the flexibility available to Deakin students is the option to combine on and off-campus study during your course (provided the units offered in your chosen course are available in both study modes). Many of Deakin's on-campus courses comprise units that are also available in off-campus study mode, enabling you to combine on and off-campus study during your degree.

Online learning

All courses have an online component. Access to online education adds another dimension to your degree and prepares you for success in your career. Online learning aims to complement, not replace, traditional teaching. Delivering units online creates an opportunity for you to learn in a variety of ways and gives you more control over your learning.

You can access your online units 24/7, giving you the flexibility to study when and where it suits you. Online learning provides you with valuable experience in a world that is increasingly dependent on information technology.

Trimesters

Deakin operates a trimester system, meaning there are three 12 week study periods during the teaching year. Deakin's trimesters run from March to June, July to October and November to February.

Our trimester system gives you greater flexibility and creates options for you to commence your degree sooner or at a more convenient time of year. It enables you to speed up or slow down your study, or even fast-track the completion of your degree by taking extra units throughout the calendar year. You may even like to take a trimester off to fit your study around work, travel or family commitments.

Undertaking study in Trimester 3 is not compulsory. For more information, please visit www.deakin.edu.au/trimesters.

Full-time or part-time mode

You can study full time or part time depending on the number of credit points you take in each trimester, and you can also switch from full time to part time and vice versa throughout your degree. Every unit (subject) you enrol in has a credit point rating and most postgraduate units are equivalent to 1 credit point. If you are enrolled in 3 or more credit points in a trimester, you are deemed to be a full-time student for that trimester. A small number of courses are only available full time, and some are only available part time.

International study tours

Some courses offer you the opportunity to participate in study tours. Undertaking a study tour enables you to gain credit towards your degree without extending the length of your studies. It's not every day that you can have breakfast in China with a lecturer in international business, wander around the Taj Mahal discussing the Mughal empire with an expert in Indian commercial law or discuss potential investing opportunities with a business manager. Study tours integrate educational, cultural and practical experiences, placing your studies in an international context.

Single-subject (non-award) study

You can pursue your personal or professional interests with a Deakin single-subject (non-award) unit.

Single-subject (non-award) study provides access to a wide variety of tertiary-level units. Most units offered by Deakin are available for non-award study. Some units have prerequisites or special requirements, but most are open to all. Enrolling in single-subject (non-award) study allows you to test the waters before enrolling in a full program. If successfully completed, the unit may be counted as credit towards your chosen course at Deakin, subject to admission to a course and approval by the Faculty.

Practical programs

Some postgraduate programs allow you to take up a practical component during your studies. This gives you the opportunity to put theory into practice, make contacts and build networks that will serve you well beyond graduation. A practical learning experience teaches skills that can't be learned in the classroom and develops personal qualities that make Deakin graduates stand out from the crowd. For example, the Deakin Graduate School of Business offers two units aimed at giving you real-world business experience while earning credit toward your degree. These are the Business Practicum and the Postgraduate Internship.

Flexible learning

Deakin offers you the flexibility and choice to make your learning experience fit with your lifestyle, work and personal commitments.

With four campuses and off-campus study options, you choose where and when you study. By tailoring a course to match your career goal, you can specialise in one area or opt for a breadth of topics. There is no limit to your options.

You can choose from a variety of teaching delivery methods including traditional on-campus lectures, podcasts, iLectures, online tutorials and residential programs. Flexible course entry and exit points, and full-time and part-time study all allow you to choose the pace of your study.

* Not all courses or units are available through on-campus study and off-campus study.

Off-campus study

Off-campus study – or distance education – is fast becoming the preferred way to combine postgraduate study with work or family commitments.

For many, it's simply not possible to attend university on-campus. Distance, work or family commitments can make travelling to, and attending university difficult; however, Deakin's flexible distance education allows you to successfully combine postgraduate study with the other commitments in your life.

As an off-campus student your study parallels that of an on-campus student – the only difference is that you determine when, how and where you study. With a comprehensive range of study materials, online units and Deakin's teaching and learning support, postgraduate study has never been more accessible.

Deakin – a distance education leader

Deakin has a proud history in distance education. Founded on a commitment to off-campus teaching in the 1970s, Deakin has been a flagship university for its delivery of accessible and flexible higher education.

It is now one of only four Australian universities to receive international accreditation from the Accrediting Commission of the US Distance Education and Training Council (DETC), and the DETC accredits Deakin's full range of off-campus courses – up to and including masters.

More courses, more choices

Deakin offers almost all of its postgraduate courses in an off-campus study mode which means you have a wide range of programs to choose from. These range from graduate certificates through to masters degrees.

Flexible study modes

Flexible distance education allows you to successfully balance postgraduate study with your life. You may choose to study your entire course in off-campus mode, or combine it between on and off-campus study. You may also switch between on and off-campus study modes – it's your choice.

Study support

As an off-campus student you are provided with a strong network of support including study guides, reading lists, CDs and DVDs and Deakin's 'Software Essentials'. You also have access to the resources of Deakin's off-campus library as well as interactive study methods such as iLectures and podcasts.

Other distance education support includes:

- » online conferencing for peer support and group and individual communication between our staff members and students
- » tutorial and tele-tutorial groups which give you the opportunity to discuss unit requirements with your tutor and make contact with other students
- » optional weekend classes – usually held once each trimester, these classes enable you to meet your peers and academic staff members
- » specialist off-campus career advisers and language and learning advisers who can help you with course direction and the development of your study skills and techniques
- » campus bookshops which sell text books, general books, stationery, calculators, computer software, and art and photographic materials online at www.dusabookshop.com.au.

Library services for off-campus students

As an off-campus student you will be well-supported by the services of Deakin's award-winning library. Regardless of where you live, books and study materials are sent to you and you have access to the library's comprehensive electronic collection.

Connected ... and in control

As an off-campus student you will have a direct link to all your enrolment and fee records through StudentConnect which is your personal information gateway at <http://studentconnect.deakin.edu.au/connect/webconnect>.

StudentConnect allows you to:

- » access course completion details
- » access eCAF (electronic Commonwealth Assistance Form) and eCAN (electronic Commonwealth Assistance Notice)
- » access exam timetables
- » access fees information and make payments
- » access results
- » find and print assignment cover sheets
- » find Credit for Prior Learning information
- » re-enrol
- » receive confirmation of enrolment
- » track your assignments
- » update your address details
- » vary your enrolment.

• STUDENT •
PROFILE

Eleanor-Louise Grimmer
Master of Arts
(Professional Communication)
Completed: 2009

'I am very pleased to finally have the qualification and I believe it will help me with future career prospects in the field of public relations/communications. I appreciated the ability to study via distance given that I worked full time while I studied. I think Deakin delivered an excellent "product".'

Campuses

Deakin University has four campuses in the state of Victoria – one in **Melbourne**, two in **Geelong** and one in **Warrnambool** – as well as offering the option of studying off campus.

Our range of campuses means you can choose the study environment that suits you. Each of our campuses offers a unique atmosphere – from the inspiring architecture and seaside appeal of our Geelong Waterfront Campus, to the café culture of our Melbourne Burwood Campus, the spectacular coastal location of our Warrnambool Campus or the mix of activity and open space at our Geelong Waurin Ponds Campus.

Each Deakin course adheres to the same high standards, regardless of where you study. So a Graduate Diploma of Psychological Studies at the Warrnambool Campus is the same as a Graduate Diploma of Psychological Studies at the Geelong campuses.*

Deakin University's campuses boast a range of course-specific facilities like a motion capture studio, TV studio, architecture studio, nursing labs, teachers' interactive classroom and more.

Each campus also provides you with a variety of facilities to enhance your experience. These include:

- » libraries
- » cafés and food outlets
- » 24-hour computer laboratories
- » 24-hour on site security
- » medical centre and health services
- » multi-faith prayer rooms.

Deakin's campuses have a strong presence in the local community and are all accessible by public transport or car. There is limited on-campus car parking. For public transport information for all campuses, please visit www.victrip.com.au. For information about how to travel to Deakin campuses in an environmentally friendly way, such as cycling, public transport or car pooling, please visit www.deakin.edu.au/travelsmart.

Campus maps and more information can be found at www.deakin.edu.au/campuses. If you would like to book a tour at one of Deakin's campuses, please email enquire@deakin.edu.au.

* Not all specialisations are offered at each campus.

FOR MORE INFORMATION VISIT
www.deakin.edu.au/campuses

Geelong

Geelong is Victoria's second largest city with a population close to 212 000 people. It is situated on the beautiful Corio Bay and Barwon River, and is less than one hour from the centre of Melbourne by car or train leaving from Southern Cross station in Melbourne's CBD.

It is known as the gateway to the world-famous Great Ocean Road and is close to some of the best surf beaches in the world. Geelong has all the amenities of a larger city, including excellent cafés, restaurants, shopping and recreational facilities, and offers a clean, healthy and relaxed environment in which to live. Geelong is one of Victoria's fastest growing regions, boasting strategic growth in industries such as tourism, education, innovation and research.

The 23 km Geelong Ring Road on the city's western outskirts, has reduced travel time around the city to 15 minutes – making travel to and from Deakin's Geelong Waurin Ponds Campus, particularly from Melbourne, even easier.

Travel between Deakin's Geelong campuses is only 15 minutes by car, and with five bus routes, including an express service, now linking the Waterfront and Waurin Ponds campuses, travel between campuses has never been easier.

Geelong Waterfront Campus

The Geelong Waterfront Campus is Deakin's newest campus, located on Corio Bay, in the central business district of Geelong. Originally built as woolstores in 1893, the buildings have been extensively renovated to create a modern and impressive campus. More than 2100 students are based at the Geelong Waterfront Campus, which hosts the School of Architecture and Building, the School of Health and Social Development, the School of Nursing and Midwifery, and the School of Psychology. Services and facilities include:

- » Computer-Aided Design (CAD) laboratories
- » design studios
- » purpose built occupational therapy and nursing laboratories.

The extensively refurbished Dennys Lascelles Building houses the Alfred Deakin Prime Ministerial Library and the Alfred Deakin Research Institute. The Alfred Deakin Research Institute is an interdisciplinary teaching and research centre covering political science, public policy and governance, international relations, globalisation, journalism and communications.

Geelong Waterfront Campus

Geelong Waurin Ponds Campus

On the western edge of Geelong, this campus is Deakin's second-largest, with more than 4300 on-campus students. Services and facilities include:

- » fitness club and sports hall, tennis courts, walking/running track and sporting fields (cricket, football, soccer, gridiron, archery, golf driving range) and features expansive landscaped grounds
- » single room on-campus accommodation for 485 students in a mixed gender, multicultural environment.

The central hub of the campus is currently being transformed to provide a contemporary learning environment, refurbished student amenities and improved IT access in informal spaces. This major project is partly funded through the Commonwealth Government's Capital Development Pool.

The campus is home to the Geelong Technology Precinct (GTP), which provides research and development capabilities and opportunities for university–industry partnerships and new enterprises in the region.

New hospitals to be built on campus

The medical precinct at this campus will be significantly upgraded, with Epworth HealthCare committing to build a 250-bed private hospital by 2013. In addition the recently elected State Liberal Government has committed \$85 million for a 32-bed public hospital.

Melbourne

The city of Melbourne has a population of 3.9 million people. It is exciting and well-known for its music and cultural festivals, quality restaurants, entertainment venues, beautiful parks and gardens and excellent shopping. Its world-class sporting and recreational facilities host international events such as the Australian Open Tennis, Melbourne Cup, and the International Cricket Test series.

The suburb of Burwood is a major commercial and residential municipality in Melbourne's east, approximately 15 km from the CBD. Burwood is a mix of quiet residential streets and bustling shopping centres, with important retail centres in the neighboring suburbs of Box Hill and Forest Hill. The local area has more than 350 parks and reserves.

Melbourne Burwood Campus

This thriving campus is Deakin's largest and attracts 17 000 undergraduate and postgraduate on-campus students. It boasts open and inviting spaces for socialising and studying, innovative architecture, spacious new buildings and wireless locations.

Features of the Melbourne Burwood Campus include:

- » Deakin University Art Gallery
- » Deakin *Motion.Lab* – motion capture facility
- » a purpose built gymnasium and sports hall
- » single room accommodation for 200 students, with additional housing for 400 students due for completion in 2012.

Melbourne Burwood Campus

Warrnambool

Warrnambool is three and a half hours west of Melbourne at the end of the Great Ocean Road, and has a population of more than 32 000 people. It is a compact and stylish centre, with wide open spaces, beaches, great surf and lush green hinterland.

The city has a great range of places to eat, catering for a variety of tastes and budgets. It is a city where everything is in easy reach.

On the shores of Lady Bay, Warrnambool is nestled between two rivers and near Lake Pertrope. The wonderful environment provides the backdrop, the classroom, the recreation focus and a great reason to study in Warrnambool.

Warrnambool Campus

Deakin's Warrnambool Campus is set on the banks of the Hopkins River. Due to its location in a small, regional city and its on-campus student population of more than 1000, the Warrnambool Campus is a friendly, close-knit community, with a personal and informal relationship between students and staff. On-campus facilities include:

- » excellent teaching and learning spaces, purpose-built for niche courses, such as the Freshwater and Marine Biology courses
- » fitness club, basketball, netball and tennis courts and a golf course
- » single room on-campus accommodation for 240 students in a mixed gender, multicultural environment.

Its proximity to a range of aquatic environments provides an ideal location for specialist studies in Marine Biology and Freshwater Biology – making it a 'classroom without walls'.

The campus is well serviced by a bus which runs between the Warrnambool city centre and the campus. Melbourne is three and a half hours away by train and the V/Line service runs three times a day with two trains stopping at the campus.

Warrnambool Campus

How to apply

Applying for postgraduate programs at Deakin is easy – you can even track the progress of your application online.

Coursework applications

Most students applying for a postgraduate degree by coursework will need to have previously completed an undergraduate degree; however, there are other pathways. If you have considerable work or life experience you may be able to use this to obtain admission into a graduate certificate or graduate diploma course. You may then progress to a masters degree.

A postgraduate qualification can advance your career or you may use it to help change direction to a completely new industry.

Application process

Step 1 – Choose your program

You can select up to three course preferences.

Step 2 – Register

Register as a user www.deakin.edu.au/apply.

Step 3 – Apply online

Start your online application.

Step 4 – Documentation

Provide supporting documentation including:

- » certified copies of your undergraduate and/or postgraduate qualification/s
- » curriculum vitae detailing work experience applicable to your course application
- » certified copy of name change documentation if you have previously studied at Deakin under a different name.

You may also be asked to provide a personal statement outlining what you hope to obtain from your qualification.

Step 5 – Submit

Submit the completed online application.

Step 6 – Verification

Once the application has been submitted you will receive an email to confirm the successful submission of the application including an application number.

You can track the progress of your application by logging into www.deakin.edu.au/apply where the status of your application will appear.

Step 7 – Accept your offer

If you are offered a place, you will need to accept it online within a specified timeframe.

Step 8 – Enrolment

If you have been offered and subsequently accepted a place you will receive enrolment information with further details in the mail.

Application dates

Applications for enrolment in Trimester 3, 2011 and Trimester 1, 2012 open in August 2011. Applications for Trimester 2, 2012 open in April 2012.

We encourage you to submit your application early because some courses have limited places or quotas. Applications received after the quotas have been filled for Trimester 1 commencement will be considered for a place in Trimester 2.

Some postgraduate courses, such as the Master of Teaching have alternative application processes and closing dates.

For the most up-to-date information, please visit our web site www.deakin.edu.au/postgrad or phone our customer service team on 1300 DEGREE (1300 334 733) to request a postgraduate study area booklet.

FOR MORE INFORMATION VISIT
www.deakin.edu.au/apply

Research applications

Deakin offers three types of research degrees: Masters by Research, Doctor of Philosophy (PhD) and Doctor of Psychology (DPsych).

A research degree requires the candidate to complete an approved program of research under the guidance of one or more supervisors within a time period. The supervisors will be experienced and active researchers with expertise in the field of study.

Application process

Step 1 – Entry pathways

Demonstrated capacity to undertake significant research in your proposed field is needed. This includes:

- » completion of an honours degree
- » completion of a research or coursework masters degree
- » comparable qualifications from international universities
- » relevant postgraduate research experience
- » independently peer-reviewed journal articles, publications, or conference papers
- » professional reporting or prior learning
- » research related awards or prizes
- » other evidence of research ability.

Step 2 – Find our research strengths

Search our web sites and publications to confirm that Deakin has the expertise to supervise your project.

Step 3 – Research proposal

Write a 300-word proposal (or 750 words if applying to the Faculty of Arts and Education) to demonstrate a clear vision of what you want to study, why this is a topic of personal interest, and how you will approach the research question.

Step 4 – Further documents

Other documents you are required to submit include:

- » any published research – including the name of the publication and a copy of the contents and abstract pages.

Post a certified copy of:

- » proof of Australian citizenship or permanent residency, or New Zealand citizenship (e.g. birth certificate, passport, citizenship certificate or visa)
- » transcripts of all of your tertiary education studies except those undertaken at Deakin University
- » proof of your start date and evidence of any intermissions or changes of candidature (e.g. from full time to part time) if you are applying to transfer a research degree from another institution
- » proof of any name changes (e.g. marriage certificate).

Step 5 – Academic referees' reports

Confidential reports from two academic referees are required. Request reports from current or former lecturers, or academic or employment supervisors who are able to comment on your research expertise and potential.

Step 6 – Apply now

Once you have the relevant information register your application online. Visit www.deakin.edu.au/research/admin/hdradmin/online-forms/hdr-application.

Step 7 – Enrolment

If you have been offered a place you will receive enrolment information with further details via email.

English language requirements

If your first language is not English, Deakin University reserves the right to seek further documentary evidence of English proficiency. For more information, please visit www.deakin.edu.au/future-students/international/apply-entry/english-req.

Please note, individual Faculties or Schools may have higher requirements. For more information, contact your relevant Faculty via the Faculty contact details on pages 28 to 32.

Application dates

Applications for candidature without scholarship may be made at any time. Applications for scholarships have deadlines. For domestic applicants (citizens and permanent residents of Australia, and citizens of New Zealand) the scholarship round closes at the end of October.

For more information visit www.deakin.edu.au/future-students/research/research-scholarships.

For more information

If you are interested in a research degree, please contact:
Research Services Division
Phone +61 3 9251 7124
research-hdr@deakin.edu.au
www.deakin.edu.au/future-students/research.

Postgraduate studies at Deakin enable you to expand your professional and social networks, and study with like-minded people who share similar interests.

Student services

Deakin University offers a complete range of services and programs – from career advice to IT support and health services.

Study advice

Throughout your time at Deakin, study advice is available in areas including time management, reading and note-taking, developing your academic English, avoiding plagiarism, critical thinking, writing essays and reports, class presentations and exam preparation.

For more information, visit www.deakin.edu.au/study-success.

Career development and employment

Our Careers and Employment service has been recognised nationally by graduate employers and other universities for its support to students, and its innovative careers programs. To enhance your future employment prospects, our Careers and Employment services offer career guidance, job search assistance, and interview and resume skills training.

Deakin University can help with your career options upon completion of your postgraduate course. Individual consultations with a careers counsellor typically address:

- » job seeking strategies
- » developing interview skills
- » career planning.

You will have access to Jobshop – an online job vacancy service that lists part-time, casual and full-time employment opportunities. Please visit the careers service at www.deakin.edu.au/future-students/services-facilities or Jobshop at www.deakin.edu.au/studentlife/aheadstart.

Counselling and personal support

Professional and experienced counsellors provide free, confidential counselling where personal concerns or stresses are affecting your studies.

The counselling team also provides a range of programs and strategies to help you achieve success at university.

For more information, visit www.deakin.edu.au/counselling.

Financial support

The University offers financial assistance to students, including interest-free loans, grants, food vouchers and rental assistance.

For more information, visit www.deakin.edu.au/financial-assistance.

Religious services

Deakin offers spiritual counselling and faith support services to students regardless of their religious backgrounds. There are opportunities for worship and prayer in a multi-faith space at the Melbourne Burwood Campus and prayer spaces are available at all campuses.

For more information, please visit www.deakin.edu.au/studentlife/chaplains.

Medical centre

Deakin University offers medical and nursing healthcare and advice to students across all campuses. Services include:

- » GP consultations
- » vaccinations for general health, course requirements and travel
- » tests and screenings including blood pressure, pathology and medical checkups
- » referrals to specialist doctors, hospitals, physiotherapists and psychologists
- » diet and exercise advice
- » mental wellbeing (e.g. homesickness, depression, anxiety)
- » treatment and care when sick.

Medical centre staff are caring professionals with experience in students' health needs. Campus nurse consultations are free and all services are strictly confidential.

Health information is available in various languages at each medical centre.

For more information, visit www.deakin.edu.au/current-students/services/health.

Library

Deakin University Library provides a range of high-quality services that are innovative, relevant and customised to your needs.

Each campus has a library that is open throughout the year where you can study, borrow books, use Library computers, or connect your own laptop to the University wireless network. Look out for quiet areas for study and research, multimedia pods for practising your presentations and completing group work, and vibrant lounge areas for reading or meeting up with friends.

There are more than 1.47 million books, journals, newspapers, videos, CDs and DVDs across the campus libraries. Many of the Library's resources are online, so you can access them on campus, at home or at work – any day, any time – via your computer or your mobile phone. The Library also offers 'go anywhere' access to Library resources. Simply direct your mobile phone browser to <http://m.library.deakin.edu.au> and take the Library with you.

Resources not held by the Library can be requested from libraries worldwide. Off-campus students located in Australia may have print material from any campus Library sent to their nominated address free of charge.

Information sessions and Library tours during Orientation will help you get started, and online tutorials and face-to-face workshops are offered throughout the year. The Library's help services are available in person or via email, phone or instant messaging. Liaison librarians with subject expertise can provide one-on-one consultations to discuss the information sources and search tools on offer. Small group, research-training sessions are also offered in person and online via the Library web site.

For more information about the Deakin University Library, including opening hours, contact information and the latest on new services and resources, visit www.deakin.edu.au/library.

FOR MORE INFORMATION VISIT
www.deakin.edu.au/studentlife

IT at Deakin

All students can access 24-hour computer laboratories on each campus, and email and internet access for study purposes.

The laboratories include Macintosh and IBM computers and provide a range of software and facilities, including Microsoft Office, internet access, library services, multimedia tools, statistic and specialist teaching software and laser printing.

When you commence your studies at Deakin you will receive a CD-ROM (Software Essentials) containing software, information and support programs and the necessary links to communicate electronically with University staff.

Disability services

Students with a health condition or a disability (long term or temporary) that affects access or ability to study should contact the Disability Resource Centre soon after enrolment.

The staff will develop a plan with you that may include:

- » alternative assessment arrangements, such as extra writing time and/or rest breaks in exams
- » academic support workers, such as note-takers and sign interpreters
- » study materials in accessible formats
- » help with assistive technology and training
- » information about extended library services, scholarships, etc.

For more information, please visit www.deakin.edu.au/disability.

Bookshops

Campus bookshops provide academic and general books, stationery, calculators, computer accessories, and art and photographic materials. You can also buy online at www.dusabookshop.com.au and have purchases sent to you.

Childcare

There are childcare centres at Deakin's campuses at Burwood, Waurin Ponds and Warrnambool. Places are limited and in high demand so enquiries should be made as early as possible.

More information about our childcare services can be found at www.deakin.edu.au/studentlife.

Food and drink

All campuses offer a range of spaces in which you can relax and socialise. Food and drink outlets vary from campus to campus but can include cafés, food courts, restaurants and bars. International meals and halal food are available on all campuses.

Deakin University Student Association (DUSA)

DUSA is independent from the University and dedicated to enriching your university experience. DUSA believes the university experience isn't just about going to class, it's being part of a student community. DUSA membership gives you discounts on trips, entertainment and short courses, as well as access to the following:

- » more than 80 clubs and societies
- » sport – including Uni Games, Southern Uni Games and campus sport
- » trips, tours and entertainment throughout the year
- » student representation – DUSA is your student voice and represents your interests at Deakin and in the wider community
- » student advocacy (academic and non-academic issues with the University)
- » DUSA bookshop – textbooks, stationery and general books
- » DUSA member card.

Find out more about the benefits of DUSA membership at www.dusa.org.au.

Accommodation

Deakin University aims to provide you with an excellent living and learning experience on campus. Choosing the best type of accommodation for your needs is important for your total university experience. There are two types of accommodation services provided at Deakin: on-campus student residences or an off-campus housing referral service.

For more information, please visit www.deakin.edu.au/future-students/services-facilities/accommodation.

An Elite Athlete Friendly University

Deakin is dedicated to supporting elite athletes in their quest to achieve academic success alongside the demands of training and competition. That's why Deakin is a member of the Elite Athlete Friendly University (EAFU) network.

We understand elite athletes may need extra support and flexibility and have a range of measures in place. These include enabling student athletes to negotiate assessment deadlines, lecture and tutorial attendance, and study loads to integrate with sporting commitments.

Student athletes may also be able to take several leaves of absence in order to meet sporting commitments and extend the length of time normally allowed to complete a course. We also provide course advice, academic planning guidance, and support for cross-institutional studies, where possible.

For more information about Deakin's support for elite athlete students, please visit www.deakin.edu.au/future-students/why-deakin/eafu.

Melissa Birks
Master of Business Administration
Completed: 2007

'It helped broaden my skill base, introduced me to other intelligent, motivated people at a similar level from a range of industries. I still remain friends with a number of my fellow students. Professionally the skills I learnt have been invaluable.'

Fees and scholarships

Research degree fees

Australian citizens, Australian permanent residents and New Zealand citizens are not required to pay tuition fees for the normal duration of their research degree candidature, i.e. up to a maximum of four years of full-time equivalent study for a doctoral candidate and two years of full-time equivalent study for a masters candidate.

Postgraduate degrees by coursework fees

Tuition fees are assessed based on the unit(s) in which you are enrolled. This means you pay fees for the units you choose in your course, rather than paying a fixed course price. Different units have different costs, based on how much it costs the University to provide the particular unit.

Course and unit details and associated fees can be found by using the course search tool www.deakin.edu.au/future-students/courses.

Please confirm fees when you are applying by visiting www.deakin.edu.au/future-students/fees or phoning 1300 DEGREE (1300 334 733).

FEE-HELP loan program

You may not have to pay your fees upfront.

FEE-HELP is a loan program that assists fee-paying students to defer the payment of their tuition fees. FEE-HELP can cover all or part of your tuition fees. The Australian Government pays the amount of the loan direct to your higher education provider.

Over your lifetime you can borrow up to a maximum FEE-HELP limit which is indexed annually. For all courses except medicine the maximum limit is \$86 422 (2011). For medicine the maximum limit is \$108 029 (2011).

For postgraduate courses, there is no real interest charged on your debt. Your accumulated HELP debt is indexed annually to maintain its real value, by adjusting it in line with changes in the cost of living (as measured by the Consumer Price Index).

FEE-HELP is administered under the Higher Education Support Act 2003 (HESA) by the Department of Education, Employment and Workplace Relations (DEEWR), the Australian Taxation Office, higher education providers and Open Universities Australia.

Am I eligible for FEE-HELP?

You are eligible for FEE-HELP assistance if you:

- » are enrolled in a fee-paying postgraduate coursework program (not research)
- » are not a Commonwealth supported student
- » are an Australian citizen or a holder of an Australian permanent humanitarian visa (who meets eligibility requirements)
- » meet the Tax File Number (TFN) requirements
- » have not exceeded the maximum indexed FEE-HELP limit.

If you obtained a loan under HECS, PELS, BOTPLS or OLDPS prior to 2005, the amount you borrowed does not affect your eligibility for FEE-HELP. Only the amount borrowed to pay tuition fees using FEE-HELP after 1 January 2005 is counted towards the FEE-HELP limit.

Holders of other permanent visas are not eligible for FEE-HELP unless they are undertaking a bridging course for overseas trained professionals.

When do I start repaying my FEE-HELP loan?

FEE-HELP debts are added to any existing HECS or HECS-HELP debts to form a single HELP debt.

Students repay their loans through the Australian taxation system once their income is above the minimum threshold for compulsory repayment.

For more information you can download the Australian Government's 2011 FEE-HELP information brochure. Alternatively you can visit the Government's *Going to Uni* web site at www.goingtouni.gov.au or phone the new student funding measures enquiry line on 1800 020 108.

Student income support

If you are undertaking a professionally oriented coursework masters degree that is required for entry to a profession or is the fastest pathway to professional entry (for example Master of Commerce, Master of Dietetics, Master of Professional Accounting or Master of Social Work), you may be eligible for student income support.

To be eligible for student income support through Youth Allowance and Austudy, you will need to be studying full time and to satisfy all other program requirements, including personal, parental or partner income tests. Please contact Centrelink on 13 2490 for more information about masters courses income support entitlements.

The following table is a guide for domestic postgraduate tuition fees for each of the various disciplines. Fees are per year, for an Equivalent Full Time Study Load (EFTSL). Note that a normal full-time study load of 8 credit points equates to one EFTSL.

Funding cluster description	\$ per EFTSL*
Law	\$21 840
Accounting, Administration, Economics, Commerce	\$20 576
Public Relations	\$15 912
Humanities	\$13 288
Mathematics, Statistics	\$18 816
Computing	\$19 944
Built Environment	\$21 424
Other Health	\$18 112
Social Studies	\$15 600
Behavioural Sciences excluding Clinical Psychology	\$19 592
Education	\$14 744
Clinical Psychology	\$20 152
Foreign Languages, Visual and Performing Arts	\$18 128
Allied Health	\$21 120
Nursing	\$17 688
Engineering, Surveying	\$24 256
Science	\$24 256
Dentistry, Medicine, Veterinary Science	\$47 424
Agriculture	\$30 624

* Fees are per Equivalent Full Time Study Load (EFTSL), 8 credit points per year. That means, these are annual fees for a full-time student, (studying 8 credit points per year). So, if you are a part-time student, studying 4 credit points per year, your annual fees would be approximately half the figure quoted here. These costs are for 2011.

Commonwealth Supported Place (CSP) students

Some postgraduate courses at Deakin offer Commonwealth Supported Places. Depending on the course, an Australian Commonwealth supported student at Deakin in 2011 can expect to pay between \$4355 and \$9080 per year of study. These fees may change for 2012.

Eligible students may obtain loans via the Higher Education Contribution Scheme-Higher Education Loan Program (HECS-HELP). Repayments are made through the Australian taxation system once annual income exceeds the minimum threshold for repayment. Alternatively, eligible students can pay their contribution upfront and receive a discount.

Scholarship opportunities

Deakin offers a variety of scholarships to help support you financially during your studies.

General information about scholarships at Deakin is available at www.deakin.edu.au/scholarships. More detail on scholarships for students enrolling in postgraduate research degrees at Deakin University is available at www.deakin.edu.au/research/admin/scholarships.

You can also visit the Commonwealth Department of Education, Employment and Workplace Relations (DEEWR) scholarships information web site for links to a range of scholarships relevant to postgraduate study, including Australian postgraduate awards www.deewr.gov.au. Many industry and community scholarships are also available.

International students

For information about fees and courses available to international students, please contact Deakin International for a copy of the *Postgraduate Course Guide for International Students* via email, deakin-international@deakin.edu.au.

Course fees and tax benefits

When you enrol in a postgraduate course you may be entitled to an income tax deduction for your course fees and study-related expenses. You may be able to claim for your course fees, textbooks, stationery, student association fees, depreciation on equipment (for example your computer), or some of your travel expenses between home and the University or between work and the University. There is a threshold below which your expenses may not be claimable.

For the Australian Taxation Office (ATO) to allow self-education expenses to be tax deductible a direct connection must exist between your course and your existing work. If you are studying the course in order to maintain or improve a skill or specific knowledge that is required in your existing work, your course expenses might be tax deductible.

To clearly demonstrate to the ATO that a direct connection exists, you might have to provide a supporting statement from your employer.

Please note that this information is provided as a guide only. For more information about study and tax arrangements, please speak with your accountant or tax adviser or visit the ATO web site www.ato.gov.au.

Cost-sharing with employers

Some employers provide financial and other support, such as study leave, for staff members who are completing study that is directly related to their employment and the employer's core business. At Deakin, many people are studying a postgraduate course with their employer's help.

Study support policies benefit both the employer and the employee.

For employers, when they support relevant study programs, they can help attract and retain well-qualified and experienced staff members. Before you approach your employer for study assistance, you should check to see whether a support policy is in place.

Try to give your employer every reason to agree to your application. It can help if you provide your employer with a written submission outlining the benefits and the direct and indirect costs involved. The submission could include information about:

- » the course you wish to study
- » any tax deductible aspects of the program
- » a summary of the short and long-term benefits that would flow to you and your employer
- » an estimate of the total course costs of fees, textbooks and other materials
- » an estimate of the time you would be required to be away from work in order to attend classes and exams, prepare reports and so on
- » what assistance you are requesting for aspects such as sharing of costs and granting of time off work.

Many employers are willing to share the course costs. They might either reimburse you after you have successfully completed the course or pay a percentage of the individual unit fees at the end of each trimester. If your employer is reluctant to support your study application, consider suggesting you form an agreement to cover contingencies. For example, propose that if you withdraw from or fail a subject or leave your job within a year of finishing the course, you will offer to pay back some of the fees your employer has paid.

Your employer might be concerned about how your studies will affect your availability and productivity at work. In the case of off-campus study it is easier to complete your studies outside working hours.

In many on-campus programs, classes are held outside regular working hours.

Kasia Maruszak
Master of Marketing
Melbourne Burwood Campus
(on and off campus)
Completed: 2010
Employed: Marketing and Events
Coordinator, ANZ Private

‘Initially I worked as a physiotherapist but it was not for me so I made the transition to marketing.

Studying a masters degree was a great experience. As I was working full time, Deakin’s online component was really important for me – especially the online lectures. Everything is based around DSO (Deakin Studies Online) and it far surpassed some of the other unis in that area. I also enjoyed participating in discussions during evening classes.’

Information correct at March 2011, Deakin University reserves the right to alter, amend or delete course offerings and other information listed.

- 1 Fees quoted are for Australian domestic students and should be used as a guide only. Fees are based on a typical enrolment in one year of full-time study. All fees quoted are for Fee-Paying Places, unless indicated CSP (Commonwealth Supported Place). Actual tuition fee charged may depend on the units studied and are subject to change. Master program students please note: where the length of the master program is 12 units or 1.5 years of full-time study equivalent, the indicative fee may not be a full fee for the course. For more fee information, including information about the FEE-HELP loan program and how you can defer your payments, see page 16 or visit www.deakin.edu.au/fees.
- 2 Most courses start in Trimester 1. This column indicates whether you have the option of commencing your studies in Trimester 2 or Trimester 3. Not all units are offered in every trimester.
- 3 Only Indonesian can be studied off campus or at the Geelong Waurn Ponds Campus.
- 4 Graduate entry preservice teaching qualification.
- 5 Off-campus course, however, attendance required on campus for a core unit intensive workshop.
- 6 Also offered through the Institute of Koorie Education, which uses community-based delivery.
- 7 The Bachelor of Medicine Bachelor of Surgery is taught across two semesters.
- 8 Master of Teaching E760 not offered at Warrnambool Campus in 2012.
- 9 Trimester 2 intake may be available subject to sufficient enrolments and is at the discretion of the Head of School.
- 10 Availability of units may be limited in Trimester 3.
- 11 Exit options are available at the graduation certificate (4 credit points) and graduate diploma (8 credit points) levels.

Our Alumni Community

Deakin takes great pride in the achievements of its graduates throughout the world and aims to provide lifelong learning and networking opportunities for all its Alumni.

Once you complete your Deakin degree, you will be invited to become a member of our online Deakin University Alumni Community to continue your relationship with the University and the networks you have developed while studying.

The Deakin University Alumni Community will enable you to keep or renew contact with your student and professional networks around the world and will help you grow your career after you leave the University. Members have access to many exclusive benefits including:

- » professional networking opportunities
- » discount library membership (free for the first year)
- » career development services
- » lifelong learning opportunities
- » online news services and social media
- » student mentoring
- » Alumni Business Directory
- » invitations to social events
- » company discounts.

Alumni membership is free and joining is easy.

Log on to www.deakin.edu.au/alumni/register to register for membership. Once you are registered you can then take advantage of the many benefits available.

You may even want to become involved with an Alumni chapter. Chapters are based around the course you studied, the Faculty or School you studied or worked with, or your home country. For more information, visit the Deakin Alumni web site at www.deakin.edu.au/alumni.

Deakin Alumni members represent a wide range of sporting, business and community sectors and include:

- » Carolyn Hardy – CEO, UNICEF Australia
- » John Brumby – Victorian Premier 2007–2010
- » Dr Phillip Aspinall – Anglican Archbishop of Brisbane, Queensland
- » Neil Comrie AP, APM – Chief Commissioner of Victoria Police 1993–2001
- » Anthony (Tony) Arnel – Victorian Building Commissioner
- » Jim Stynes OAM – AFL Brownlow Medallist, President of the Melbourne FC, AFL Hall of Fame inductee and charity worker
- » Ben Graham – NFL Punter and former AFL footballer
- » Briony Cole – diving gold medallist 2006 Commonwealth Games and silver medallist 2008 Beijing Olympics
- » Geoffrey Hunt MBE – world squash champion
- » Wayne Phillips – Australian cricketer, cricket coach and media commentator
- » Richard Colman OAM – gold medallist and dual silver medallist 2004 Athens and 2008 Beijing Paralympics
- » Mary Coustas – actress and comedian
- » Tanya Ha – TV presenter and author
- » David McAllister AM – professional dancer and Artistic Director of The Australian Ballet
- » Livinia Nixon – TV presenter
- » Jeffrey Makin – artist
- » Mandawuy Yunupingu – Aboriginal musician.

David McAllister
Graduate Diploma of Arts and Entertainment Management
Off campus
Completed: 2000
Employed: Artistic Director, The Australian Ballet

.....
'I studied at Deakin between 1999 and 2000 while I was still dancing full time with The Australian Ballet . . . I could do the study off campus while still working and touring both nationally and internationally.

After I graduated, I was appointed Artistic Director of The Australian Ballet, a position I felt more prepared to apply for having undertaken the study.

I was inspired by the wonderful facilities, especially for off-campus students like myself, and the ability to discover a deeper understanding of the arts industry from a completely different point of view.

Today I am motivated by my fellow workers in all areas of the organisation. In the future, I'd like to see the arts, and especially dance, as a central part of our Australian way of life.'

Research that makes a difference

Universities are all about knowledge – creating, discovering, analysing, sharing and dispersing knowledge. Research is at the core of these activities and helps to make Deakin University a vibrant place to study.

At Deakin we take pride in being relevant to students and to their communities, not just in the courses we teach, but in the research we undertake.

Whether you want to study Engineering, Law, Politics, Education, Psychology, Medicine, Health or in another field, studying at a university that is committed to research that matters means that you have the opportunity to learn from people who are making a real difference in the world.

More and more, Deakin University is becoming a research driven institution, which means that our lecturers include the people who write the textbooks or who are regarded as being at the cutting edge in their fields of research.

This is important, regardless of whether or not you want to pursue a research career, because it means that you will graduate with the latest knowledge in your chosen field.

Honours

For many students, honours is the first opportunity to undertake their own research. Honours is a specialised year of study that allows you to draw together the theory and practical skills gained in previous undergraduate studies and develop an in-depth knowledge of your particular discipline through research and additional coursework.

At Deakin you can apply to undertake honours in one of two ways:

On-course honours award

Choose a course that has honours embedded within the course, e.g. Bachelor of Engineering. This type of honours award recognises outstanding achievement in a bachelors degree program of four or more years which has an embedded honours component.

Research-based honours award

Choose a course that allows you to undertake an additional year of study, e.g. Bachelor of Arts. This type of honours award allows you to undertake specialised research and research training.

These honours awards will provide you with significant experience and exciting opportunities to expand your skill base before moving onto employment or postgraduate study. It is also the standard (and shortest) pathway for entry into research degrees.

Research degrees

You can pursue postgraduate research studies in three different ways:

- » a masters by research, which is awarded for an original contribution to knowledge achieved in up to two years of full-time candidature
- » a Doctor of Philosophy (PhD), which is awarded for a substantial original contribution to knowledge achieved in two to four years of full-time candidature
- » a Doctor of Psychology (DPSych), a professional doctorate program which combines a research project, coursework and structured research tasks that specifically relate to professional practice.

There has never been a more exciting or compelling time to be at Deakin University as it moves confidently towards the goal of improving its research performance so that it is in the top third of the Australian higher education sector.

This is being achieved by building a critical mass of researchers who will develop a distinctive, broad-based portfolio of high-quality discovery, applied and commercial research.

At the centre of Deakin's research strengths are its leading edge research facilities, institutes and centres:

- » Institute for Technology Research and Innovation (ITRI)
- » Alfred Deakin Research Institute (ADRI)
- » Institute of Koorie Education (IKE)
- » Geelong Technology Precinct (GTP)
- » Centre for Comparative Social Research (CCSR)
- » Centre for Memory, Imagination and Invention (CMII)
- » Centre for Mental Health and Wellbeing Research (CMHWR)
- » Centre for Physical Activity and Nutrition Research (C-PAN)
- » Centre for Research in Educational Futures and Innovation (CrEFI)
- » Centre for Sustainable and Responsible Organisations (CSaRO)
- » Centre for Quality and Patient Safety Research (QPS)
- » Centre for Integrative Ecology (CIE)
- » Molecular and Medical Research (MMR)
- » Population Health (DPH)
- » Centre for Biotechnology, Chemistry and Systems Biology (BCSB).

Deakin researchers continue to inspire the community with recent discoveries in relevant areas such as:

- » obesity and its prevention in the 21st century
- » mental health of farmers through difficult times
- » emerging fibres that will play a role in providing an environmentally sustainable future
- » creation of the UCI compliant *Deakin Smart Bike*.

The University's Medical School also plays an important role in enhancing Deakin's research reputation in public health. Another central component to Deakin's innovative work in health and wellbeing is the Clinical Research Facility. This is a multipurpose area capable of supporting both discrete discipline and multidisciplinary activity.

To discover more about Deakin's research strengths, please visit www.deakin.edu.au/research.

Amy Nethery

PhD – Centre for Citizenship,
Development and Human Rights

Melbourne Burwood Campus

Completed: 2009

.....

'I have completed a doctoral thesis examining immigration detention in Australia at Deakin's Centre for Citizenship, Development and Human Rights. I began my PhD at Deakin in 2006 and have had the wonderful opportunity to work with experienced and dedicated supervisors.

'My research into immigration detention in Australia is interdisciplinary, drawing on social and political theory, law, and history ... I've also done sessional teaching, research assistant and administrative work throughout my candidature.'

•STUDENT•
PROFILE

Geoff Schoenberg

Currently: Master of Commerce

Melbourne Burwood Campus

International student Geoff Schoenberg says he chose Deakin because of its strength in sports management research.

'I was looking to develop my knowledge of leadership within organisations and wanted to prove to myself that I could achieve a higher level of education . . . a masters by research seemed like the logical step.'

'As a research student, it is a far more inclusive process than that of an undergraduate. I am treated as a peer and there is a significant level of support throughout the University.'

Faculty of Health

The Faculty of Health offers research opportunities in the following areas:

Disability

Equity and access issues and the nature of disability in the areas of employment, telecommunications and assistive technologies; the law; community living; and evaluation of services.

Exercise and Sport Science

Physical activity and health; exercise and behaviour; muscle and bone metabolism; movement analysis; neural control of muscle in health and disease; musculoskeletal rehabilitation; and athlete and sport performance; clinical exercise; occupational exercise science; health and sport coaching.

Food and Nutrition Science

Measurement and evaluation of food sources of nutrients; impact of nutrient intake on disease risk; sensory evaluation of taste and its influence on diet; nutritional assessment; epidemiology and population health; public health policy; diet and disease relationships throughout the lifespan (infant/child/elderly), including a specific interest in cancer, cardiovascular disease, lipidology, obesity, diabetes, osteoporosis, gut health; molecular nutrition; food formulation, chemical evaluation of food and substantiation of health benefits of functional foods.

Health

Health promotion; health economics; program evaluations; public health policy; community interventions; obesity prevention; diabetes; osteoporosis; rural health; health and the environment encompassing sustainability, decision-making and community involvement; social determinants of health in which the focus is on equity, gender, ethnicity and inequality.

Medicine

Rural and regional general practice; health and wellbeing; chronic disease.

Nursing and Midwifery

Safety, quality and equity of health care; minimising clinical risks; symptom management; workforce development; and advancing evidence-based policy and practice in acute, aged and community settings.

Occupational Therapy and Sciences

Early childhood intervention, specific learning disabilities, developmental coordination disorders, and social adaptive behaviour.

Psychology

Clinical, health and forensic psychology; social and mental health; adolescent health; risk behaviours, body image and disordered eating; drugs and alcohol; eye-witness testimony; treatment of offenders; human sexuality; healthy ageing and depression among older people; quality of life; relationships; human factors such as auditory and visual perception; and organisational psychology in health care settings.

Public Health

Nutrition, physical activity and population health; public health and social/cultural aspects of health; health economics and program evaluation; international health; health and human services systems; epidemiology and population health; behavioural epidemiology.

Social Work

Social work theory and practice; critical social work; evidence bases in social work; social work education; human services provision; child and family welfare; mental health; diversity and inclusivity; masculinities; religion and spirituality; gender relations and gender violence.

* Applications for these courses must be received by 31 October 2011.

@ Including public health, health promotion, disability, social work, occupational therapy and community health.

Louise Phillips
 Currently: PhD – School of Health
 and Social Development
 Melbourne Burwood Campus

‘My PhD is set in accommodation services for people with intellectual disability. I want to find out how support workers interpret and implement various policies and procedures relating to supporting residents who may exhibit challenging behaviour.’

I completed my undergraduate course at Deakin many years ago and I always valued the lecturers’ underlying philosophy of valuing and respecting all people, including those with intellectual disability – I chose to undertake postgraduate studies at Deakin because of this kinship.’

Research degrees

Faculty of Science and Technology

Course name course code	Years full time and campus
Architecture and Construction	
Master of Architecture (Research) S800	1 – 2 F X
Master of Construction Management S805	1 – 2 F X
Doctor of Philosophy S917	3 – 4 B F X
Biological, Biomedical and Chemical Science	
Master of Science S811	1 – 2 B G X
Doctor of Philosophy S911	3 – 4 B G X
Engineering	
Master of Engineering S825	2 G X
Doctor of Philosophy S915	3 – 4 G X
Environment	
Master of Science S810	1 – 2 B W X
Doctor of Philosophy S910	3 – 4 B G W X
Information Technology	
Master of Science S813	1 – 2 B G X
Doctor of Philosophy S913	3 – 4 B G X

Faculty of Science and Technology research areas

Within the Faculty of Science and Technology, each School offers research opportunities in the following areas:

Architecture and Building

Architectural sustainability; urban and regional ecologies; cultural ecologies; construction ecologies.

Life and Environmental Sciences

Biochemistry, biodiversity, bioinformatics, biomolecular sciences; chemistry and forensic sciences; ecophysiology, sensory ecology and behaviour; environmental management and sustainability, evolutionary biology, marine and freshwater science; palaeobiology and global change; wildlife and landscape ecology.

Engineering

Advanced materials and manufacturing; automotive engineering; biological micro electro mechanical systems; networked sensing and control; signals and systems; sustainable water management; structural engineering.

Information Technology

Information security and forensics; network computing; optimisation, intelligent modelling and learning; pervasive and service computing.

Kyle Nelson
Bachelor of Engineering
(Mechatronics and Robotics)
Geelong Waurin Ponds Campus
Completed: 2009
Currently: studying a PhD

‘Currently I’m working on a joint research project between Deakin’s Centre for Intelligent Systems Research and Boeing Research & Technology – Australia. I am studying an image-processing technique called super-resolution, which involves combining several low resolution images to create a higher resolution image.

What I enjoy most about my research is teetering on the edge of what is currently known, and the unknown. It is great to have the freedom each day to follow my ideas and see where they lead.’

Key terms

Bachelors degree

An undergraduate award. Normally the first university qualification undertaken.

Combined courses

An approved combination of courses in complementary areas, undertaken simultaneously, which leads to the conferral of two awards e.g. MBA (International)/Master of Professional Accounting. This means you will complete two degrees in a shorter timeframe than it would take to complete the degrees separately.

Commonwealth Supported Place (CSP)

A university place for which the government pays a proportion of the tuition costs. CSP students can pay up-front and receive a discount or use HECS-HELP to defer payment.

Credit for Prior Learning

Credit granted towards your Deakin course for relevant approved study, experience or work satisfactorily completed at the University or elsewhere. There are two aspects to Credit for Prior Learning:

- » credit may be transferred to your Deakin program from completed or partly completed studies you have undertaken at other accredited institutions; and
- » credit may be granted on the basis of knowledge and skills acquired through uncredentialed learning.

Credit point

A measure of workload. Most postgraduate units are equivalent to 1 credit point.

EFTSL

Equivalent Full-Time Student Load.

Electronic Commonwealth Assistance Notice (ECAN)

Electronic Commonwealth Assistance Notice, shows FEE-HELP and OS-HELP contributions and amounts reported to the Australian Taxation Office.

Equity and diversity

The Equity and Diversity Unit provides a range of programs to ensure all students have the opportunity to access university education and succeed in education and employment.

Faculty

An organisational division within a university; for example, the Faculty of Arts and Education is one of the four Faculties at Deakin University. Within each Faculty are several Schools, for example the School of Law is within the Faculty of Business and Law.

FEE-Higher Education Loan Program (FEE-HELP)

A loan scheme for Fee-Paying Place (FPP) students, repayable through the Australian taxation system once your annual income exceeds the minimum threshold for repayment.

Fee-Paying Place (FPP)

A place that is not subsidised by the government, so you pay the full cost of the course. As an FPP student you may be eligible to defer repayments through the Australian taxation system, through FEE-HELP. Your employer may also contribute to the cost of study if the course is related to your current position.

Graduate entry

A course that requires completion of a prior undergraduate degree for entry. Deakin's Bachelor of Medicine Bachelor of Surgery is a graduate-entry course.

Higher Education Contribution Scheme-Higher Education Loan Program (HECS-HELP)

HECS-HELP is a loan scheme to help CSP students pay for tuition costs. Repayments are made through the Australian taxation system once annual income exceeds the minimum threshold for repayment.

Off-campus study

Off-campus courses, or courses offered by distance education, are the same as on-campus courses; the only difference is that rather than attend classes in person, you study away from campus using a variety of other methods, including online technologies, study guides, reading lists and audiovisual materials.

Postgraduate degree

Courses of study beyond bachelors level, including graduate certificates, graduate diplomas, masters and research degrees – also known as higher degrees by research (HDR). Eligibility for entry to a postgraduate coursework program normally requires a completed undergraduate degree, however, professional and industry experience will also be considered. Eligibility for entry to a research degree normally requires an honours degree of an appropriate standard, or an equivalent qualification.

Quarter

The enrolment periods for research degree students. At Deakin University there are four quarters. Quarter 1 runs from January to March, Quarter 2 runs from April to June, Quarter 3 runs from July to September and Quarter 4 runs from October to December.

Single-subject (non-award) study

A non-award unit is a unit of study from a degree course taken outside a degree program. If successfully completed, the unit may be counted as credit towards a degree course at Deakin, subject to admission to a degree course and approval by the Faculty.

Trimester

The method of organising the teaching year. At Deakin University there are three trimesters: Trimester 1 runs from March to June, Trimester 2 from July to October, and Trimester 3 from November to February.

Unit

A university subject or unit is normally one or two trimesters long and may have a value ranging from 1 to 4 credit points.

For a comprehensive list of common terms, visit www.deakin.edu.au/glossary. You can also ask one of our course advisers to explain anything you don't understand about your course structure or requirements. Phone 1300 DEGREE (1300 334 733) and ask to speak with a course adviser.

Scott Readett

Graduate Diploma of Nursing Practice

(Critical Care)

Melbourne Burwood Campus

Completed: 2010

*Employed: Critical Care Nurse,
Box Hill Hospital, Melbourne*

.....
'I enjoy my work because of the life-changing impact you can have on patients and their families . . . it's an ever-changing working environment and one day is never the same as the next.

My course was taught with an easy, no-nonsense teaching approach. This meant concepts that would normally be complex and confusing, were understandable.

Postgraduate study has put me on a path of education and I am now regularly a preceptor for junior and new nurses as well as a mentor for other postgraduate nursing students.'
